Virginia Anxious for the Navy to Buy Exposition Grounds.

NORFOLK, VA., May 15.—The receivers for the Jamestown Exposition Company will shortly make another erfort through the congressional representatives from this State to interest Congress in the purchase of the Exposition Grounds fronting on Hampton Roads as a naval training station.

Once before the matter was before Congress, but apparently it has been sidetracked. The exposition company owes the government \$990,000, having repaid but \$100.000 of the million-dollar joan. If the government purchases lar loan. If the government purchases the grounds it would deduct the \$300,-000 from the purchase price. This seems to be the only way that the government would be reimbursed for the loan. The grounds are declared ideal for a training station, as the size would make them available for all of the branches of the service.
